

Ideation Phase Empathize & Discover

Date	01 JULY 2026
Team ID	
Project Name	Credit card approval prediction
Maximum Marks	4 Marks

Empathy Map Canvas:

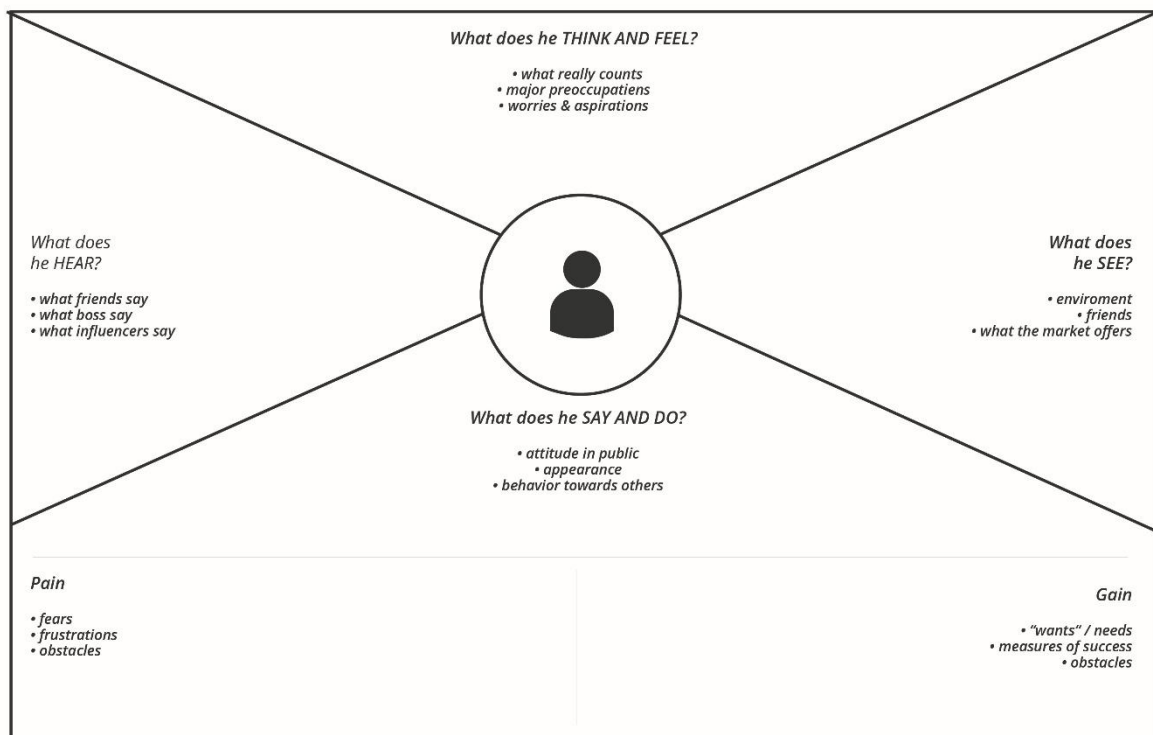

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to help teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Business Model **Toolbox**

Section	What to Write
Who are we empathizing with?	Bank applicants seeking credit card approval.
What do they need to do?	Apply for a credit card and get approval quickly and fairly.
What do they see?	Complex forms, long waiting times, and unclear approval criteria.
What do they say?	"I've submitted all documents, but still haven't heard back."
What do they do?	Reapply, call customer service, or visit the branch repeatedly.
What do they hear?	"Your application is under review," "We'll get back to you soon."
What do they think and feel?	Frustrated, anxious, uncertain about approval; worried about credit score and eligibility.
Pain Points	Manual verification, inconsistent criteria, lack of transparency.
Gains (Goals)	Faster, fairer, and automated approval process using AI.
